Work History

2020-03 - Current

IOT ENGINEER

- Present I'm working as an IOT engineer in Hiroshima
- I will be developing GUI using our own company tools such as Genware3, Genware4, Genware Air, Screen Works Web
- Our company deals with embedded software and the software is developed on raspberry pi 3 and HMI (human machine interface) boards using our own company developing tools.
- And the software languages we are using for developing is advanced C, C++ and we will be using an object-oriented language C#, for server side we will be using NODE.JS.

2017-09

Certification in NODE.JS

movies

When I was small, I used to watch more movies but now it got decreased

Personal projects:

Project: VENDING MACHINE This is Website used to sell vending machines

Language used for coding:**HTML5, CSS3, JAVASCRIPT, BOOTSTARP4, JQUERY**

Project: E-NOTICE BOARD

The main reason to choose a project is to reduce the complexity of the work and reduce time and also paper waste and Notifications can be announced or displayed by sending an email to this system.
 Language used for coding: **PYTHON**.

Other projects: I used to work in freelancer website as a part time and developed so many websites like college website, shopping website, pharmaceutical company website.
